Conceptual Gardens / Conceptualist Gardens

‘Conceptualist landscapes are predicated on ideas rather than plants or the architectural use of hard materials. Such spaces are underpinned by a single concept, or visual motif, which informs every aspect of the design. The role of the artist is therefore paramount, while the old idea of nature as a legitimate guiding force for nature is rejected’

Tim Richardson, *Avant-Gardeners*, 2008

Call for Proposals and Annual Competition

Call for proposals:	September
Deadline for proposals:	November
Jury:	December
Design:	January to April
Build:	May & June
Opening:	June 27
Closing:	September 27

Budget :	\$25,000

MÉRISTÈME – Collectif CHÂSSI [Caroline Magar, Marie-Josée Gagnon, François Leblanc].
Montréal, Canada.

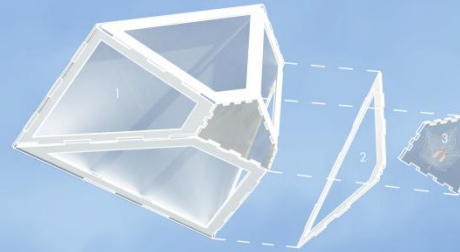

MÉRISTÈME est un microcosme fragile servant à la conservation de semences des espèces végétales terrestres menacés ou vulnérables du Québec. C'est un jardin latent, un herbier de semence. Dans sa forme de vaisseau déposé et inachevé, le méristème invite la découverte du patrimoine végétal québécois et appelle à une prise de conscience sur notre héritage botanique. Incorporées à ses parois translucides, les semences sont physiquement présentées aux visiteurs et forment ensemble une structure organique et organisée s'apparentant à la division cellulaire des plantes. Le jardin MÉRISTÈME se compose d'une aggrégation de cellules irrégulières dont chaque noyau est la semence d'une espèce végétale menacée. Mises en commun, elles forment un dôme immersif qui se dématérialise sous la lumière du soleil et projette l'ombre des semences sur les passants curieux. Le visiteur entre dans l'ensemble moléculaire. Hypnotisé par la logique et la simplicité géométrique réconfortante de la forme, il en prend conscience. Il en fait partie.

La prise de conscience naissante du rôle de la diversité biologique dans le destin de la planète et, par voie de conséquence, de notre espèce, a amené les sociétés à s'intéresser particulièrement aux espèces vulnérables ou menacées de disparition.

- Atlas sur les espèces menacées ou vulnérables du Québec. Ministère du Développement Durable, de l'Environnement et des Parcs.

1. Panneau d'acrylique
2. Contreplaqué 3/16 peint blanc
3. Gravure de feuille sur acrylique et semence

LISTE RÉDUITE, PARMI PLUS DE 500 ESPÈCES, DE SEMENCES MENACÉES AU QUÉBEC
