"With the Roadster, we're going to do some things that are kind of unfair. We're going to take some things from rocket world and put them on a car. [...] Like I said, we can't do the product unveil right here, but it's going to do some things that are unfair. When do we do unveil the Roadster, let me just say that anyone who's been waiting, they won't be sorry. ..."

"Some of the things for Roadster, the tri-motor Plaid powertrain, we're going to have that in Model S. So that's one of the ingredients that's needed for Roadster, is the Plaid powertrain, more advanced battery pack, that kind of thing. – Elon Musk"
