There's No Time to Waste.

**ORGANICS RECYCLING IS A MUST.
AS IS SOIL HEALTH.**

For our Climate, our Communities, Food Security, Biodiversity, Everything.

**Join us as the World of Organics Recycling Meets.
Niagara Falls. October 2 – 4, 2024.
Let's make a world of difference.**

WEDNESDAY OCTOBER 2 - A DAY OF TOURS!

City of Hamilton's Central Composting Facility is a three-phase in-vessel aerobic composting operation that processes 20,000 tonnes of source-separated organic waste per year. The organics are sourced from households from the City of Hamilton.

Escarpment Renewables Anaerobic Digestion Facility is a waste-to-energy facility capable of processing over 30,000 tonnes of organics annually. The facility receives residential and commercial organics from the GTA and other local sources. The process generates biogas that is used to generate electricity, and a liquid digestate. The digestate is a CFIA certified fertilizer, which is land applied on local farms as an alternative to commercial fertilizers.

Walker's Niagara Resource Management Campus is an innovative and integrated approach to resource recovery, waste management and renewable energy. The Campus includes a GORE® composting facility, renewable natural gas and landfill utilization facility, N-Viro processing facility, residential drop-off depot and a landfill. Its composting facility processes over 65,000 tonnes of municipally generated organics and leaf and yard waste annually into a premium AA compost.

34th Annual ! Organics Recycling Conference

Wednesday October 2nd to Friday October 4th, 2024
NIAGARA FALLS, ONTARIO, CANADA

THURSDAY OCTOBER 3RD & FRIDAY OCTOBER 4TH

Days of Presentations. A Thursday Evening of Networking.

POLICY, PLANS AND ACTION IN THE WORLD OF ORGANICS RECYCLING

Presenters include:

- Frank Franciosi, US Composting Council
- Jenny Grant, REA: The Association for Renewable Energy & Clean Technology
- Stefanie Siebert, European Compost Network
- Susan Antler, The Compost Council of Canada

PUTTING ORGANICS RECYCLING TO WORK

Presenters include:

- Pierre-Paul Dion, Quebec Ministry of the Environment, Wildlife and Parks, the Fight against Climate Change
- Tom Ferencevic, FITEC Environmental Technologies
- Yves Bernard, Biopterre
- Barry Campbell, City of Peterborough
- Shannon Ripley and Karine Gignac, Net Composting
- Louise Fecteau, Compo-Haut-Richelieu and Jean-Philippe Laliberté, GFL Environmental
- Jesse Kerns, Syracuse University, Center for Sustainable Community Solutions

Compostable Claims and Products

Presenters include:

- Dan Duguay, Canadian Produce Marketing Association
- Ravi Chauhan, Michael John Wolbert, BASF Canada

Processing Advances, Collection Methods, Technology

Presenters include:

- Ana Maria Salomon Arano and Daniel Gutierrez Salomon, UltraTeck International
- Aaron Osczevski, Sustainable Generation
- Baraka Poulin, ECS: Engineered Compost Systems
- Paul Larouche, BROME Compost
- Matt Hoekstra, Foodcycler
- Joe Tegerdine, Reencle
- Joe Aschl, Aschl Management Systems

Research Discoveries and Programs

Presenters include:

- Grant Clark, McGill University
- Gordon Price, Dalhousie University
- Dennis Dankwa, McGill University
- Evan Pilkington, Vineland Research Station

Getting Down to Earth: Compost, Digestate and Biochar

Presenters include:

- Brian Fuchs, W.L. Gore & Associates
- Lord Abbey, Dalhousie University
- Glenn Munroe, Compost Council of Canada

Early-Bird Conference Registration Deadline = September 5, 2024

Additional presenters to be announced.

Registration Fees:

- Early-Bird Member Rate - **\$675** + HST
- Early-Bird Potential Member Rate - **\$795** + HST
- Regular Member Rate - **\$850** + HST
- Regular Potential Member Rate - **\$995** + HST

Register Now!

Location and Accommodation Details:

**Crowne Plaza Niagara Falls-Fallsvue
5685 Falls Ave, Niagara Falls ON L2E 6W7**

Rates:

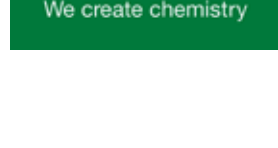

Traditional: \$159/night plus taxes and fees; *Fallsvue:* \$219/night plus taxes and fees

For these rates book by: September 3, 2024

Reservations: Phone 1-800-519-9911

Please reference your participation in The Compost Council of Canada's conference as well as the code *KWQ* to book your rooms and receive the negotiated rate.

A Special Thanks to all our generous sponsors and exhibitors:

- Al-Pack Enterprises
- Aschl Management Systems
- BDP Industries
- Biogénie inc.
- Brome Compost
- ECS/Engineered Compost Systems
- Food Cycle Science Corp.
- Machinex
- Miller Compost
- Molok North America

- Reencle Inc.
- REOTEMP Instruments
- SRS Equipment Inc.
- Supreme International Ltd.
- Sustainable Generation
- TOROMONT Industries Ltd.
- UltraTeck International
- Walker Environmental
- W.L. Gore & Associates
